

# Claire Carlin

## *Bleach\* Festival – Australia*

Claire Carlin has over 10 years' experience working in events having been involved in the development, organisation and delivery of an eclectic mix of events in a variety of different industries including universities, not for profits, craft beer and hospitality. These events range from camps for young people, large scale fundraising dinners, and academic symposiums to more intimate experiences such as brewery tours, themed dining functions, and bespoke brewery events for a range of customers and clients.

Claire has been at Bleach\* for almost four years now and has worked across the Coast on a wide variety of events. She has a passion for large scale, site specific work and the challenges they can present - she loves to solve a problem. Whether its digging balls into the sand or swimming laps to reach the goals, Claire is always keeping it real and making it happen! Claire graduated from Griffith University with a Bachelor of Applied Theatre in 2006 and returned to complete her Master of Arts and Media in 2015.
