

Juliana Consigli

Festival Internacional de Música Electroacústica – Argentina

I am a producer specialized in the cultural management and entertainment industry. I studied Stage Design at the Colón Theatre, and Graphic Design at the Buenos Aires University of Argentina. I work in pre-production and production for live events, classical music, advertising, films, and television. I develop content for individuals, companies and governments. I manage Virtuoso Records, classical musical record label and 220 Records, emerging music record label, and also represent artists.

As an executive producer, I built and led dynamic and large production teams, and worked with blue-chip corporate sponsors. I worked with the most important brands, artists, events and festivals, nationally and internationally, and due to my job, I had the experience to work on major entertainment venues of Argentina and abroad.
